

# MOBILE SERVICING

## of your Aircrew Helmets & Rescue Equipment

Investing significantly in our on-site customer servicing capability at SES, we have established a dedicated fully-equipped mobile workshop with specialist technicians carrying out specialised on-site servicing of your helmets & rescue equipment at locations throughout the UK.

**Bringing our fully equipped mobile service centre to your location**

### OUR ENGINEERS – YOUR LOCATION

Bringing a comprehensive range of spare parts and equipment to every service is essential to maintaining the high level of quality we always aim to provide. With SES fully equipped engineers servicing your aircrew helmets and rescue equipment nationally we are able to:

- Reduce downtime of your equipment
- Dramatically reduce lead times of servicing
- Improve customer interaction
- Conduct on-site testing & fault diagnosis
- Keep your equipment on-site

## OFFERING YOU THE FLEXIBILITY OF AN ASSET MANAGEMENT SERVICE CONTRACT

To support our mobile servicing and cost efficiency we are also able to provide flexible asset management service contracts to ensure year-round total care of your helmets and rescue equipment.

These service contracts can include anything from a basic maintenance package to a truly bespoke management solution for your aircrew apparatus enabling you to concentrate on your core business.

## REDUCE YOUR OPERATIONAL DOWNTIME WITH SES

- CAA A8-23 approved company
- NHS approved supplier
- Fully insured product liability
- Full service history of each fleet item
- Long-term, fixed cost asset purchase & fleet
- Fully tailored asset care maintenance packages
- Minimal operational downtime

## SES YOUR TOTAL SERVICE PROVIDER

With SES as your service provider we have all the equipment, knowledge, expertise and dedication required to meet your safety needs including the supply of coveralls, gloves, boots and next-to-skin protective garments for our customer's convenience and safety.
