

GUARDIAN ANGEL™

Illumination without Boundaries

Guardian Angel™ devices are designed with a core belief that personal lighting technology makes the world a safer place. Our mission is to save lives by developing innovative, high-tech wearable safety devices that are rugged enough to protect the lives of law enforcement and first responders in the field, yet practical and versatile enough to be a must-have tool on any construction site or outdoor adventure.

Survival Equipment Services Ltd.

Personal Safety Lighting Devices

First Responder and Law Enforcement Series
Guardian Angel
 Personal Safety Device

Working collaboratively with law enforcement and first responders our design team went to work on developing custom versions of our device that our brothers in **law enforcement can use daily in the line of duty.** In these LE Series models we kept the same casing, flush mounted controls, weight, size and two brightness settings as our original 100 and 200 Series. But, **based on the needs of this workforce,** we re-configured our work light in front to beam red for **low light tactical situations** as well as added 4 white LEDs which sit on either side of the red light for a **more enhanced, hands free work light.** In addition, the LE devices flash either red and blue or all blue on both sides.

First Responder and Law Enforcement Series

Elite - MSRP: \$99.99

Our newest model, these devices are about **half the size and weight of the First Gen LE devices** and has three brightness settings (low, medium, high). a **universal micro USB charger**, polycarbonate snap close charging port, and a smaller battery. The Elite Series law enforcement (LE) version has the same light configuration as the LE First Gen Series (red work light, enhanced white work light, each side flashes either red and blue or blue only). This device is the premier personal safety light and is trusted by first responders around the world.

Features

Increased visibility

Industry-certified up to 2+ miles visibility utilizing LED lights with 360° light coverage.

Long Battery Life

Includes a sealed rechargeable lithium ion battery providing up to 150 hours of continuous use.

Waterproof Casing

Rubber gaskets line interior of the device allowing for complete submersion without causing any damage.

One-Touch Emergency Light Activation

The Guardian Angel™ 'Elite Series' was designed to save lives, even in the most extreme conditions. One touch activation of the device allows for quick response and high visibility.

Numerous Mounting Options

Applications for individuals, vehicles, bikes, epaulettes, canines, turnout gear, medical bags, dashboards, belts, metal surfaces, and more.

Guardian Angel Elite Series

Personal Safety Device

The Elite Series is **our newest and most advanced model**, and features a **complete redesign** of our original safety lighting device. With this evolved safety device our designers pushed the limits and developed **literally the most advanced personal safety light on the planet**. The Elite Series is **smaller, lighter, stronger, and brighter** than previous models while boasting some of the most advanced LED lighting technology on the market. These devices feature a **custom designed smaller lithium ion rechargeable battery**, built in rare earth magnet, multiple mounting accessories, **high powered LEDs offering over 2+ miles of visibility**, independent front, rear, and top light controls, an ultra-bright white LED on top, emergency mode, three brightness settings, a 360° light pattern, **a polycarbonate and waterproof exterior**, and a universal micro USB charging cord. The Elite Series is **small enough for the everyday adventurer to use, but tough enough for first responder and construction use as well.**

Elite SERIES

MSRP: \$99.99

Features

Increased visibility

Industry-certified up to 2+ miles utilizing LED lights, 360 light coverage, isolated front and/or rear illumination, red LED work light, two color options, and easy button control.

Portable & Versatile

Light weight (approx. 3 oz) and small, built in Neodymium rare earth magnet to attach to securely attach to any metal surface. Comes standard with patented magnet mounting system to securely attach to any clothing or headgear.

Light output for any situation

The Elite Series has three brightness settings - low, medium, and high. Easily toggle through the settings depending on what the situation calls for.

Long Battery Life

State of the art custom built lithium ion rechargeable battery offers between 4 and 150 hour run time depending on light mode and brightness setting selected. With a recharge time of less than three hours, the total recharge time is less than the shortest run time.

Built Tough

IP68 Rated, durable, water and dust resistant, and able to withstand extreme work/weather conditions.

Customizable - Can change the light color configuration, the color of the casing (standard is black), or even add your company's logo. Minimum order sizes required.

Numerous Mounting Options

Applications for individuals, vehicles, bikes, epaulettes, canines, turnout gear, medical bags, dashboards, belts, hard hats, head gear, traffic signs, metal equipment, and more.

Constant On or Flashing Patterns

LEDs on front or back side either stay on or flash.
